- Rayana Bou Haka, WHO, Qatar
- Brian Kim, New York, USA
- Shawn Kwatra, Baltimore, USA
- Georg Stingl, Austria
- Sabine Werner, Switzerland

Swim at a Sea in the Desert

The Inland Sea is where there is beautiful water surrounded by dunes and I love to go there to go sand boarding and swimming, crabbing and fishing," Jed says. "Once we caught a catfish that was as big as my sister, Zephyr." Families come out to barbecue food in the evening. "Some people bring their camels, which you can ride for about 50 Riyals, too.

The image is a composite graphic for a desert adventure. It features a blue ATV with a rider in a blue shirt and a red and white helmet, shown in mid-air as if jumping over a sand dune. In the lower right, a white 4WD SUV is driving through the sand, kicking up a large cloud of dust. A decorative, wavy line of white dots separates the two scenes, flowing from the bottom left towards the top right. The background consists of rolling orange sand dunes under a clear blue sky.

Desert Adventure

Enjoy a desert dune bashing adventure amidst the fabled sand dunes of Qatar with this day trip from Doha. See camels and falcons, cruise thorough the sand in a 4WD vehicle, and visit the Inland Sea.

Qatar's Unicorn

The Arabian Oryx

With long spear-like horns, sharp and contrasting markings laid, the Arabian Oryx, is one of four species of antelope that lives in harsh desert environment & is native to the Arabian Peninsula. The national animal of Qatar, Oryx.

The Wings of Time

Falconry is one of the oldest tales of our time. Originally, it was another way to obtain food – just as hunting by traps, spears, or fishing would be. However, hunting with a falcon isn't just a way of hunting for your food; it's a relationship with a predator – the fastest one in the world to be precise.

Thank you !
