

ISPD's

Regional Pediatric Dermatology Courses (2026)

For Africa & the Middle East

This year - long program is designed to strengthen pediatric dermatology training across selected countries in Africa and the Middle East (countries with less organizational support). The course provides a structured, expert-led learning experience tailored to the needs of early-career dermatologists and related specialists.

Course Structure

- **Duration:** 1 year
- **Frequency:** ~4 hours per week
- **Format:** Live virtual sessions (pre-recorded/live)
- **Learning Style:** Expert lectures (by the International Fraternity), case-based discussions, interactive modules

Target Audience

- Pediatric dermatology residents
- Early-career dermatologists interested in pediatric dermatology
- Pediatricians
- Family medicine doctors

(All attendees must be registered members of the ISPD)

Why Join?

- Learn from international experts in pediatric dermatology
- Access interactive, case-based learning
- Gain structured training designed for regional needs
- Network with peers across Africa & the Middle East
